

# Bambino Festival

## 2021

### Festival opening

7 - 9 July 2021

We are opening the Bambino festival! Let's prepare tickets, let's create a proper billboard and leaflets! We need to keep the water intake, so let's prepare a festival cup! Let's wear Bambino colours and get to a wave of adventures with Mr. Bambino!

### Art festival

12 - 16 July 2021

What comes to your mind when you hear ART? Colours, maybe theatre, or even architecture and statues? There are many forms of art and we will try some of them in Bambino. We will use colours in many ways, use various materials for creation, build a futuristic bridge over the river Moldau, create a piece of work from ceramics, and last but not least, we will become actors to rehearse a drama with all the trimmings. Everyone will find the right for himself or herself because there is an artist hidden in all of us.

### Sports festival

19 - 23 July 2021

An unforgettable week full of sports and movement. We will have first-hand experience with several well and less known sports, for example including croquet, tennis, pétanque, athletics or street hockey. We will have a think about what sportsmen do for their health and physical condition.

### Book festival

26 - 30 July 2021

How is a book created? How do pictures get in and what is a bibliobus? All little readers, future librarians, illustrators and writers will definitely enjoy the book festival in Bambino. Actually, we will not only read a number of beautiful stories but we will also think up and "write" some and amend them with pictures. And that all into a book handmade by us! And maybe a real writer, illustrator or a librarian will visit us!

### Science festival

2 - 6 August 2021

White gown, protective goggles, glass flask with a liquid that changes its colours. Yes, that's right, this is a week in the sign of science. How is it possible that a soap can repel dirt from our hands? Can you create a rainbow from candies? We can write an invisible message but how to decipher it? Through scientific experiments, children will learn answers not only to these questions. A magnifying glass will become our true friend. We will use it to examine closely many interesting objects from the garden. At the end, we will make a very popular and indispensable colour slime.

### Movie festival

9 - 13 August 2021

This week, we will talk how an actor's movie and animated cartoon is created, who is the director, screenwriter, actor, what the clapperboard is, but also what movie genres there are. We will share our previous movie experiences, play pantomime, make masks and costumes, and big friends may shoot their own movie.

### Music and dance festival

16 - 21 August 2021

Do you fancy music and dance? If yes, this will be the right week for you. We will learn new funny songs that will be accompanied by our handmade musical instruments. Everything will be boosted with dance creations in the street dance, waltz, hip-hop, mazurka and other styles. And what will be the grand finale? Nothing else than election of our Bambino superstar.

### Fantasy festival

23 - 27 August 2021

Enter the world of fulfilled dreams for fans of fantasy, sci-fi, fairy tales and games. This week, there will be plenty of great entertainment accompanied by Harry Potter, Lloyd Garmadon, Sofia the First, Spiderman a many others. We will make a week upon our visions and fantasy.
